Required Plumbing Fixtures

INTRODUCTION

The California Plumbing Code requires that sanitary facilities as prescribed by occupancy type be installed. Examples of this are restroom requirements for employees required in various occupancies and requirements for facilities in Educational occupancies based on occupancy load.

TECHNICAL DETAILS

The California Plumbing Code Section 413.1 has been amended by Sonoma County Ordinance No. 5167 to read:

413.1 Fixture. Plumbing fixtures shall be provided for the type of building occupancy and in the minimum number shown in Appendix Chapter 29 of the California Building Code.
