

*Transfer of Operational Permit Required by
Sonoma County Code 24-33*

PURPOSE

To Establish a procedure as to the transferability of certain Operational Permits as required by Sonoma County Code 24-33. This procedure will apply to all private sewage disposal systems.

GENERAL

From time-to-time a structure served by a newly installed standard or non-standard private sewage disposal system requiring an Operational Permit may change hands before this office has provided substantial service. In such cases there is often a question as to the transferability of the permit.

AUTHORITY

Sonoma County Code 24-33

This procedure supersedes Division of Environmental Health Instruction 1-89.

PROCEDURE

If a property changes ownership within 60 days of the issuance of the original Operational Permit, the permit may be transferred without additional fees. The anniversary date shall remain as per permit originally issued.
